progress

the character is recognized by its profile

The story of a family

1980

Stelio Scriattoli founds **Arcansas Corporation** in Fano (Pu). A small company of 200 sq m, with **5 employees**. His dream? Commercialize on an industrial level profiles for construction and offer the market an innovative product. A winning idea thanks to which the company starts to consolidate its position and in 1984 moves to a larger site of 1000 square meters in Lucrezia (Pu).

1989/1990

Thanks to important investments in production technologies and most innovative materials available on the market, absolute innovations are presented in the profile market: **self-adhesive profiles** and profiles produced from profiling machine with **customized packaging**.

1991/1992

Stelio passes the helm of the company to his son Amedeo. The company continues to grow and in 1998 it also renews its communication with a rebranding operation: **Arcansas srl** is born.

22.000
sq m warehouse surface

55.000
sq m total surface

Future plans of the company?
Manage fully the production cycle to guarantee our customers always more quality and more control on the finished product.

Amedeo Scriattoli, CEO

2018/2019

The Piagge plant expands and the production cycle is fully transferred to the new headquarter of Mondavio (Pu). The new **Arcansas warehouse in France** is inaugurated. The product range exceeds **5000 references**. A system for the **total traceability of products** and the **automated management of the warehouse** is introduced. New finishes for aluminum, pvc and stainless steel profiles are presented.

2003/2004

It is the year of the turning point: the company opens to trade its profiles to the **large retail chains** and consolidates its market share in Italy.

1994/1995

Arcansas moves to its new 5500 sq m headquarter in Piagge (Pu). Investments in production technologies and the development of the product range continue. The **exclusive patented design of customizable display units for sales points** is introduced.

2013/2014

The third generation joins the company with Federico, Amedeo's son. **Export exceeds 30% of the turnover**. Arcansas regularly exports to over **34 countries**.

2007/2008

Arcansas becomes **leader of the large retail chains for profiles** on the Italian market. The new packaging for metal profiles is presented.

certifications /

protocol

the character is recognized by its profile

We offer a **quality product**, certified and guaranteed thanks to the continuous tests on outgoing products, the exclusive use of first choice materials and full respect of the REACH requirements for the safety of human health and for the environment.

Since 2009 we have obtained various national and international certifications that have allowed to optimize and further improve our processes.

OHSAS 18001:2007

Safety and workers health management

This standard allows to manage in "an organic and systematic way" the safety of the workers without upsetting the company's organisation structure, improving its performances.

Targets:

- cancel or minimize the risks/dangers associated to the staff activity
- involve and motivate the staff thanks to trainings, improved and safer working conditions
- Ensure that internal audits are carried out at scheduled intervals, of fitness, adequacy and effectiveness controls

Year of first issue: 2010 (annual renewal)

ISO 9001:2015 | Quality system

This internationally recognized standard, is the basis for the implementation of quality systems all over the world, instead of other requirements published in the past.

Targets:

- Improve credibility and image
- Improve the customer satisfaction
- Improve the processes that create value for the customer in terms of efficiency, elimination of wastefulness and minor number of errors.
- Improve decision-making
- Employees more involved and motivated to generate value

Year of first issue: 2003 (three-year renewal)

Protezione con pellicola
adesiva trasparente o termoretratta per permettere la maggior conservazione del profilo contro raggi UV, polvere e graffi. Ne permette inoltre il prelievo, la manipolazione ed il trasporto senza sporcare le mani e le superfici dell'auto. Si consiglia di rimuovere dopo l'installazione.

Protective film: Remove the special adhesive which has been used to protect the profile after installation.
Thanks to the protective film that Arcansas provides to its profiles, complete protection against UV rays, dust and scratches is possible.
Furthermore, the protective film guarantees an ideal solution for all types of finishes.
It is transparent and protects the customer from grease residues that form in the profile.

Film de protection: adhésif transparent ou thermo rétractable pour permettre une meilleure conservation du profilé contre les rayons UV, la poussière et les rayures. Il permet également le prélèvement, la manipulation et le transport sans se salir les mains et les surfaces de la voiture.
Il est conseillé de le supprimer après l'installation.

Protección con película: adhesivo transparente o termoretráctil para una mejor conservación del perfil contra rayos UV, polvo y arañazos.
También permite la extracción la manipulación y el transporte sin ensuciar las manos y las superficies del coche.
Se recomienda quitar después de la instalación.

Foratura: i fori svasati permettono il perfetto alloggiamento della vite che rimane con la testa allineata al profilo.
Le viti fornite sono dello stesso colore del profilo.

Holes: Screws fit perfectly with the screwhead laying flush with the surface of the profile, thanks to countersunk holes.
The screws supplied are the same color as the profile.

Perçage: les trous évasés permettent le logement parfait de la visse qui reste avec la tête alignée au profilé.
Les visse fournies sont de la même couleur que le profilé.

Taladrado: los orificios avellanados permiten el alojamiento perfecto del tornillo que permanece con la cabeza alineada al perfil.
Los tornillos suministrados son del mismo color que el perfil.

Adesivo: del tipo **Hot melt pressure sensitive** applicato a caldo (180°) direttamente sul profilo, è atossico. Può essere utilizzato a qualsiasi temperatura purchè non inferiore a 0°. Dopo l'installazione, l'adesivo diventa impermeabile all'acqua, solventi, detergenti e altri prodotti chimici. Prima dell'applicazione le superfici devono essere pulite ed esenti da grassi e polveri.

Hot melt pressure sensitive Adhesive: applied at a temperature of (180°) directly on to the profile and is non-toxic. It can also be used in lower temperatures to 0°. After installation the adhesive becomes resistant to water, solvents, detergents and other chemicals. Before application, all surfaces must be clean; free from grease and dust particles.

Adhésif: type **Hot melt pressure sensitive** appliquée à chaud (180°) directement sur le profilé. il est non toxique. Il peut être utilisé à n'importe quelle température, à condition quelle ne soit pas inférieure à 0 °C. Après l'installation, l'adhésif devient imperméable à l'eau, solvants, détergents et autres produits chimiques. Avant l'application, les surfaces doivent être propres et exemptes de matières grasses et de poussière.

Adhesivo: del tipo **Hot melt pressure sensitive** aplicado en caliente (180°) directamente sobre el perfil, es atóxico. Puede utilizarse a cualquier temperatura, siempre que no sea inferior a 0°. Tras la instalación, el adhesivo se vuelve impermeable al agua, disolventes, detergentes y otros productos químicos. Antes de su aplicación, las superficies deben estar limpias y exentas de grasa y polvo.

Adesivo: Nastro biadesivo TESA garantisce una maggior resistenza ed un'ottima durata nel tempo rispetto al pressure sensitive, le condizioni di uso possono essere verificate nella rispettiva tabella riportata di seguito.

Adhesive: TESA double-sided tape guarantees greater resistance and excellent durability over time compared to pressure sensitive, the conditions of use can be checked in the respective table below.

Adhésif: Ruban adhésif double face TESA garantit une plus grande résistance et une très bonne durée de vie par rapport à la pression sensible, les conditions d'utilisation peuvent être vérifiées dans le tableau reporté ci-dessous.

Adhesivo: Cinta adhesiva biadhesiva TESA garantiza una mayor resistencia y una óptima duración en el tiempo respecto a las prensas sensitives, las condiciones de uso se pueden verificar en la respectiva tabla a continuación.

MEDIDAS

La información, los dibujos y los datos dimensionales contenidos en esta lista incluyen medidas nominales. Las ilustraciones fotográficas están sujetas a variaciones de color con respecto a la realidad debido a la impresión.

AVVERTENZE

I profili Arcansas non necessitano di particolari manutenzioni e sono facilmente pulibili con alcool o mediante l'impiego di normali detergenti non a base acida. Si consiglia di impiegare spugne e/o panni non abrasivi per evitare di graffiare e/o danneggiare l'anodizzazione, la brillantatura, la verniciatura e la finitura. La resistenza agli agenti chimici dipende dal grado di aggressione e quindi è necessario assicurarsi in maniera preventiva dagli effetti dei prodotti impiegati per la pulizia, per la posa e la manutenzione. Calce, malte e adesivi per piastrelle possono provocare delle macchie sulla superficie a vista dei profili. E' quindi indispensabile pulire tali parti subito dopo la posa in opera.

IMPORTANT NOTES

Arcansas profiles do not require particular maintenance and are easily cleaned with alcohol or by using normal non-acid-based detergents. It is recommended to use non-abrasive sponges and / or cloths to avoid scratching and / or damaging the anodizing, brightening, painting and finishing. Resistance to chemical agents depends on the degree of aggression and therefore it is necessary to preventively ensure the effects of the products used for cleaning, laying and maintenance. Lime, mortar and tile adhesives can cause stains on the visible surface of the profiles. It is therefore essential to clean these parts immediately after installation.

Blisteratura: confezione termoretratta trasparente, resistente e appropriata per l'esposizione dei profili nell'espositore. Contiene istruzioni per la corretta applicazione del profilo.

Blistering: transparent, resistant and heat-shrink packaging for appropriate display of profiles. It contains instructions for the correct application of the profile.

Blister: emballage thermorétractable transparent, résistant et approprié pour l'exposition des profilés dans le présentoir. Il contient des instructions pour l'application correcte du profilé.

Blisteratura: envase termoretráctil transparente, resistente y adecuado para la exposición de los perfiles en el expositor. Contiene instrucciones para la correcta aplicación del perfil.

AVERTISSEMENTS

Les profilés Arcansas ne nécessitent pas d'entretien particulier et sont faciles à nettoyer à l'alcool ou à l'aide de détergent normaux à base non acide. Il est recommandé d'utiliser des éponges et/ou des chiffons non abrasifs pour éviter de rayer et/ou d'endommager l'anodisation, le polissage, la peinture et la finition. La résistance aux agents chimiques dépend du degré d'agression et il est donc nécessaire de s'assurer préventivement des effets des produits utilisés pour le nettoyage, la pose et l'entretien. La chaux, les mortiers et les autocollants pour tuiles peuvent provoquer des taches sur la surface visible des profilés. Il est donc indispensable de nettoyer ces pièces immédiatement après la pose.

ADVERTENCIAS

Los perfiles Arcansas no requieren un mantenimiento especial y pueden limpiarse fácilmente con alcohol o utilizando detergentes normales sin ácido. Se recomienda utilizar esponjas y/o paños no abrasivos para evitar rayar y/o dañar la anodización, el pulido, la pintura y el acabado. La resistencia a los agentes químicos depende del grado de agresión y por lo tanto es necesario asegurarse de los efectos preventivos de los productos utilizados para la limpieza, la instalación y el mantenimiento. La cal, las mallas y los adhesivos para baldosas pueden provocar manchas en la superficie visible de los perfiles. Por lo tanto, es indispensable limpiar estas partes inmediatamente después de la colocación.

productivity

the character is recognized by its profile

We transform **aluminum, stainless steel, brass, iron and pvc** into products with strong aesthetic and technical impact thanks to a **constant research of quality** in the raw materials.

The beauty and care in the finishes show great attention to details, which is not obvious in the production of profiles.

Quality control manager

The search of the best raw materials and the **variety of finishes available** are the first steps to create an excellent product. This is why we put great attention and care in the selection and research of the materials we produce our profiles. Our wide range of finishes goes from the brushed, chromed, copper aluminum to the glossy and mat pvc. The close collaboration with our suppliers allow us to develop and research **ad hoc products** to satisfy the very different needs of each customer.

production cycle / raw materials

EXCLUSIVE FINISHES

Thanks to careful analysis and to our know how, we offer a **real alternative to standard finishes** of the profiles on the market. We've been the first ones to introduce new decorative finishes for aluminum, pvc, iron and stainless steel in the field of hardware and do-it-yourself.

production cycle / production /

productivity

the character is recognized by its profile

450

profiles blistered in an hour

16h

one production cycle

To whom asks which is the secret recipe to produce high-level profiles we answer: **experience, the people and technology.**

We like the nice things, and we know that to create them you need not only **technologically advanced tools**, but also the passion and ability of qualified persons that can use them. We dedicate **great care in the selection and training of our staff**, always keeping an eye on technological innovation, to offer a complete product.

SERIE TECH

Alluminio Anodizzato Satinato

Anodised Satin Alu/ Alu Anodisé Satiné/ Alu Anodizado Satinado

Alluminio Anodizzato Satinato :

Subisce un trattamento di ossidazione anodica per immersione in vasche elettrolitiche e successivamente nelle vasche del colore che viene poi fissato nelle ultime vasche del lungo processo anodico, dando vita ad uno strato protettivo che protegge il profilo. Arcansas garantisce uno spessore del trattamento da 10 a 15 µm secondo il tipo di colore per la massima qualità di protezione. Arcansas impiega la lega 6000 per ottenere una colorazione uniforme dal massimo grado di finitura estetica oltre che funzionale. Colori disponibili : argento oro e nero satinati.

Vantaggi :

Facilmente lavorabili grazie alla duttilità di questa lega. Elevato aumento della resistenza alla corrosione acida, salina o agenti atmosferici rispetto all' alluminio naturale. Elevata resistenza ai graffi (non propria dell'alluminio naturale). Adatto per interni ed esterni. Riciclabile nell' alluminio.

Satin Anodised Aluminum :

The aluminum profile undergoes an anodic oxidation treatment by immersion in electrolytic tanks first and subsequently in colour tanks to create protective layer that protects the profile. For the highest quality of protection, Arcansas guarantees a treatment thickness of 10 to 15 µm depending to the colour type. Arcansas uses the 6000 alloy to obtain a uniform colouring with the highest degree of aesthetic as well as functional finish.

Available satin colours: silver, gold and black.

Advantages :

Easily workable thanks to the ductility of this alloy. High increase in resistance to acid, saline or weathering corrosion compared to natural aluminum. High scratch resistance. Suitable for indoors and outdoors. Recyclable.

Aluminium Anodisé Satiné :

La transformation de ce matériau commence par sa plongée dans des cuves électrolytiques qui en permettent l'oxydation anodique. Dans la phase suivante les produits passent dans des cuves de peinture. Dans les dernières cuves de ce long procédé la couleur est fixée et une couche protectrice qui protège le profilé est créée. L'épaisseur du traitement Arcansas est de 10 à 15 micron (selon la couleur) pour garantir une protection optimale. Afin d'obtenir une coloration uniforme Arcansas utilise une ligue 6000, qui donne au produit une finition esthétique maximale mais aussi fonctionnelle. Couleurs disponibles : argent, or, noir.

Les avantages :

Facile à utiliser grâce à la ductilité conférée par la ligue 6000. Résistance à la corrosion acide, saline et aux intempéries (majeure par rapport aux profilés en aluminium naturel). Adaptables à l'intérieur et extérieur. Aluminium 100% recyclable.

Aluminio Anodizado Satinado :

Se somete a un tratamiento de oxidación anódica por inmersión en tanques electrolíticos y posteriormente en tanques del color que luego se fija en los últimos tanques del largo proceso anódico, creando una capa protectora que protege el perfil. Arcansas garantiza un espesor de tratamiento de 10 a 15 µm según el tipo de color para la más alta calidad de protección. Arcansas utiliza la aleación 6000 para obtener una coloración uniforme con el más alto grado de acabado estético y funcional. Colores disponibles: plata, oro y negro satinado.

Ventajas :

Fácilmente mecanizable gracias a la ductilidad de esta aleación. Elevado aumento de la resistencia a la corrosión ácida, salina o por agentes atmosféricos en comparación con el aluminio natural. Alta resistencia al rayado. Adecuado para interiores y exteriores. Reciclable en el aluminio.

Alluminio Naturale Natural Alu/ Alu Naturel/ Alu Natural

Alluminio Naturale :
L'alluminio naturale della lega 6000 utilizzata da Arcansas è caratterizzata da una elevata resistenza naturale (al contrario dell'acciaio naturale) alla corrosione salina, acida o atmosferica. Colore : argento naturale semilucido.

Vantaggi :
Maggior lavorabilità rispetto all'aluminio anodizzato o verniciato in quanto privo di strati aggiunti. Saldabile, verniciabile, calpestabile. Prezzo più competitivo. Riciclabile nell'alluminio.

Natural Aluminum :
The natural aluminum of the 6000 alloy used by Arcansas is characterized by a high natural resistance (as opposed to natural steel) to saline, acid or atmospheric corrosion. Colour: semi-gloss natural silver.

Advantages :
Greater workability than anodised or painted aluminum as it has no added layers. Weldable, paintable, walkable. More competitive price. Recyclable.

Aluminium Naturel :
L'aluminium naturel Arcansas est obtenu par la ligue 6000, qui lui donne une haute résistance naturelle à la corrosion acide, saline et aux intempéries (au contraire de l'acier naturel). Couleurs disponibles : argent naturel.

Les avantages :
Aucune couche n'est rajoutée au profilé. Cela permet une transformation plus aisée par rapport à l'aluminium anodisé ou laqué. Possibilité de vernir ou souder le matériel. Piétiner sur ces profilés n'abime pas le matériel. Prix plus compétitif que les autres matériaux. Aluminium 100% recyclable.

Aluminio Natural :
El aluminio natural de la aleación 6000 utilizada por Arcansas se caracteriza por una alta resistencia natural (a diferencia del acero natural) a la corrosión salina, ácida o atmosférica. Color: plata natural semibrillante.

Ventajas :
Mayor maquinabilidad que el aluminio anodizado o pintado, ya que no tiene capas añadidas. Soldable, pintable, transitable. Precio más competitivo. Reciclable en el aluminio.

* Profili compatibili con connessioni a pagina 185

Profiles compatible with connections on page 185

Alluminio Naturale Mandorlato :
La speciale lavorazione superficiale ottenuta per pressa rotativa, confe-
risce una speciale lucentezza di base
e figure a rilievo con funzione anti-
scivolo adatte per scalini o superfici
sdrucciolevoli.
Adatto anche alla protezione degli
spigoli o superfici nelle zone di
passaggio.
Colore: argento naturale lucido.

Checked Natural Aluminium :
The special surface processing obtained by rotary press gives a special basic shine and relief figures with non-slip function suitable for stairs and slippery surfaces. Also suitable for corners protection and for surfaces in transit areas.
Color: shiny natural silver.

Aluminium Damiers :
Le traitement à travers lequel la surface de ces profilés est obtenu grâce à une presse rotative. Cela donne une brillance à la base du profilé et une texture en relief apte pour escaliers ou surfaces glissantes, mais aussi pour protéger les coins ou les surfaces dans des espaces de transition. Couleurs disponibles : argent naturel brillant.

Aluminio Ajedrez :
El procesamiento especial de la superficie obtenido por la prensa rotativa proporciona un especial brillo de base y figuras en relieve con función antideslizante apropiado para escalones o superficies resbaladizas. También es adecuado para proteger esquinas o superficies en áreas de tránsito.
Color: plata natural brillante.

Acciaio Natural Steel/Acier Naturel/ Acero Natural

Acciaio Naturale :

Profili ottenuti mediante laminazione a caldo gli uni e profilatura a freddo gli altri, sono sbavati e protetti con un lieve strato di grasso protettivo atta a conservarlo nel tempo. I profili in Acciaio sono forniti in confezione trasparente e termoretratta per permetterne la maggior conservazione e il prelievo, manipolazione e trasporto senza sporcare le mani e le superfici dell'auto.

Vantaggi :

Adatti a sopportare pesi molto maggiori dei profili in alluminio. Saldabile, zincabile verniciabile. Tagliabile con sega a ferro manuale. Riciclabile nei metalli.

Natural Steel :

Profiles obtained by hot rolling or cold profiling process, are both deburred and protected with a light layer of protective grease to preserve it over time.

The steel profiles are supplied in a transparent and thermo-rettracted package to allow greater preservation of the product and to avoid getting your hands dirty during picking up and handling as well as avoid getting your car interior dirty during transportation.

Advantages :

Suitable to withstand much greater weights than aluminum profiles. Weldable, paintable and galvanizable. Can be cut with manual iron saw. Recyclable.

Acier Naturel :

Ces profilés sont obtenus par le laminage direct, grâce à une profilature à froid et par l'ébavurage. Ils sont aussi protégés par une subtile couche de graisse afin d'en garantir la longue durée.

Les articles se présentent dans un emballage thermo rétractable pour garantir une manipulation en sécurité à partir de l'usine jusqu'au transport en voiture.

Les avantages :

Aptes à supporter un poids beaucoup plus grand que les profilés en aluminium. Possibilité de zinguer, vernir ou souder le matériel. Recyclable.

Acero Natural :

Perfiles obtenidos por laminación en caliente y perfiladura en frío, se desbarban y protegen con una capa ligera de grasa protectora para preservarlo en el tiempo.

Los perfiles de acero se suministran en envases transparentes y termo-retraídos para permitir una mayor conservación y recolección, manipulación y transporte sin ensuciar las manos y las superficies del coche.

Ventajas :

Adecuado para soportar mucho mas peso que los perfiles de aluminio. Soldable, galvanizable y pintable. Cortable con sierra de hierro manual. Recicitable en los metales.

Acciaio Naturale Prêt-à-porter

I prodotti in acciaio naturale Arcansas vengono forniti con blisteratura termoretratta trasparente che protegge il profilo e ne permette il trasporto senza sporcarsi con il grasso di lavorazione.
Arcansas natural steel products are supplied with transparent heat-shrink blister that protects the profile and allows it to be transported without getting dirty with the processing grease.

Acciaio trafiletto :
Ha le medesime caratteristiche generali dell' acciaio naturale, ma la sezione ha una precisione decimale e una superficie liscia.

Vantaggi:
Adatto per inserti di precisione.
Riciclabile nei metalli.

Drawn steel :
It has the same general characteristics as natural steel but the section has decimal precision and a smooth surface.

Advantages :
Suitable for precision inserts.
Recyclable.

Aacier tréfilé :
Caractérisé par les mêmes qualités que l'acier naturel, sa section offre une précision décimale et une surface lisse.

Les avantages :
Apte pour insertion de précision.
Métal 100% recyclable.

Acero estirado : Tiene las mismas características generales que el acero natural, pero su sección tiene una precisión decimal y una superficie lisa.

Ventajas :
Apto para insertos de precisión.
Recicitable en los metales.

Barre Filettate Threaded Rods/ Tiges Filetées /Varillas Roscadas

Barre Filettate :

Piene o cave per uso industriale e/o hobbyistico sono fornite nei seguenti materiali: acciaio zincato, acciaio inox, acciaio naturale, ottone.
Le aste filettate cave sono adatte al passaggio di cavi e fili elettrici (es: lampadari).
Magnificamente presentate in pratici espositori e contrassegnati singolarmente con descrizione e codice EAN per una facile identificazione.
Tranne quelle in acciaio naturale tutte le altre sono altamente inossidabili.
Riciclabile nei metalli.

Threaded Rods :

Solid or hollow for industrial and / or hobby usage, they are available in the following materials: galvanized steel, stainless steel, natural steel, brass.
The hollow threaded rods are suitable for the passage of cables and electric wires (e.g. chandeliers).
Magnificently presented in practical displays and individually marked with description and EAN code for easy identification.
Except those in natural steel, all the others are highly resistant to the rust.
Recyclable.

Tiges filetées :

Disponibles en acier zingué, acier inox, acier naturel et laiton, les tiges filetées pleines ou creuses sont aptes aux professionnels et aux amateurs.
En particulier, les tiges caves sont idéales pour faire passer les câbles et les fils électriques (par exemple les lustres).
Elles sont exposées dans des présentoirs pratiques, chacune a sa description et code EAN pour une identification facile.
Elles sont aussi inoxydables sauf celles en acier naturel.
Métal 100% recyclable.

Varillas Roscadas :

Llenas o huecas para uso industrial y/o bricolaje se suministran en los siguientes materiales: acero cincado, acero inoxidable, acero natural, latón.
Las varillas roscadas huecas son adecuadas para el pasaje de cables y alambres eléctricos (por ejemplo, lámparas de araña).
Magníficamente presentadas en prácticos expositores y marcadas individualmente con la descripción y el código EAN para una fácil identificación.
Excepto las de acero natural, todas las demás son altamente inoxidables.
Reciclable en los metales.

Barre Filettate DIN 976 con filettatura metrica standard ISO, acciaio zincato 4.8
Threaded rods DIN 976 with metric ISO standard thread, galvanised steel 4.8.

Acciaio Zincato :

Profili ottenuti mediante profilatura a freddo, sono sbavati e protetti con un lieve strato di grasso protettivo atto a conservarli nel tempo.

Galvanized Steel :

Profiles obtained by cold profiling, are deburred and protected with a thin layer of protective grease to preserve it over time.

Acier Galvanisé :

Les profilés sont créés par la profileuse à froid et par l'ébavurage. Ils sont protégés par une couche subtile de gras qui garantit le bon maintien du produit dans le temps.

Perfiles obtenidos por perfiladura en frío, se desbarban y protegen con una capa ligera de grasa protectora para preservarlo en el tiempo.

Acero Galvanizado :

Perfiles Perfiles obtenidos por perfiladura en frío, se desbarban y protegen con una capa ligera de grasa protectora para preservarlo en el tiempo.

Vantaggi:

Adatti a sopportare pesi molto maggiori dei profili in alluminio.
Saldabile, verniciabile.
Tagliabile con sega a ferro manuale
Riciclabile nei metalli.

Advantages :

Suitable to withstand much greater weights than aluminum profiles. Weldable, paintable. Can be cut with manual iron saw. Recyclable.	Aptes à supporter un poids beaucoup plus grand que les profilés en aluminium. Possibilité de zinguer, vernir ou souder le matériel. Broyage.
---	--

Les Avantages :

Aptes à supporter un poids beaucoup plus grand que les profilés en aluminium. Possibilité de zinguer, vernir ou souder le matériel.	Adecuado para soportar mucho mas peso que los perfiles de aluminio. Soldable, pintable. Cortable con sierra de hierro manual. Reciclable en los metales.

Aste per Armadio

Wardrobe Rods/Tiges pour Armoires/Barras De Armario

Aste per Armadi :

In acciaio per uso professionale , nei seguenti materiali: acciaio verniciato a polveri epossidiche, ottonato o cromato. Esteticamente impeccabili, sono adatte a sopportare il peso degli abiti.

Vantaggi :

Resistenti all'ossido.
Facilmente tagliabili con seghetto manuale.
Riciclabile nei metalli.

Wardrobe Rods :

Made of steel for professional use, they are available in the following finish: epoxy powder painted, brassed or chromed. Aesthetically impeccable, they are suitable for bearing the weight of clothes.

Advantages :

Oxide resistant.
Easy to cut with a manual hacksaw.
Recyclable.

Tiges pour Armoires :

Pour une utilisation professionnelle, ces profilés sont disponibles en acier traité avec vernis époxyle, chromés ou en effet laiton. Impeccables au niveau esthétique, les tiges sont aptes à supporter le poids des vêtements.

Les Avantages :

Résistants à l'oxydation.
Faciles à couper avec une scie à métaux.
Métal 100% recyclable.

Barras de Armario :

En acero para uso profesional, en los siguientes materiales: acero pintado con polvos epoxídicos, latónado o cromado. Estéticamente impecables, son adecuados para soportar el peso de la ropa.

Ventajas :
Resistente al óxido.
Fácilmente cortable con una sierra manual.
Reciclable en los metales.

Profili in PVC Satinato

Satin PVC Profiles/ Profilés en PVC Satiné/Perfiles de PVC Satinado

Profili in PVC Satinato :

I profili in PVC Arcansas sono colorati in massa. Non cambiano colore se graffiati.

Rappresentano la soluzione ideale per DIYers grazie alla versatilità e alla facilità di utilizzo. Disponibile in colore bianco, nero, trasparente, grigio e imitazione legno.

La versione trasparente consente l'abbinabilità con qualsiasi colore di fondo.

Vantaggi :

Grande disponibilità di colori.
Facilità d'uso: tagliabile con taglierino o forbici.
Buona resistenza meccanica e ai raggi UV.
Durata nel tempo.
Prezzo competitivo.
Riciclabile nella plastica.

Satin PVC Profiles :

Arcansas PVC profiles are mass-coloured. They do not change colour if scratched.

They represent the ideal solution for DIYers thanks to their versatility and ease of use. Available in different colours and finish: white, transparent, black, grey and wood-effect.

The transparent profiles can be perfectly combined with any background colour.

Advantages :

Wide range of colours.
Ease of use: can be cut with a cutter or scissors.
Good mechanical and UV resistance.
Durability.
Competitive price.
Recyclable.

Profilés en PVC Satiné :

Les profilés en PVC Arcansas sont laqués en masse et ne changent pas de couleur si griffés.

Ils représentent la solution idéal pour le bricolage grâce à l'utilisation facile et à la versatilité de ce produit.

Couleurs disponibles : noir transparent, blanc, gris et effet bois. La version transparente garantit la combinaison des nuances entre le profilé et toute couleur de base.

Les Avantages :

Grande disponibilité en couleur.
Faciles à utiliser avec les ciseaux ou le cutter.
Résistance mécanique et aux rayons UV.
Produit durable, prix compétitif.
Matériel 100% recyclable (plastique).

Perfiles de PVC Satinado:

Los perfiles de PVC Arcansas tienen el color en masa. No cambian de color si se rayan.

Representan la solución ideal para los aficionados al bricolaje gracias a su versatilidad y facilidad de uso. Disponible en blanco, negro transparente, gris e imitación madera.

La versión transparente permite combinarlo con cualquier color de fondo.

Ventajas :

Gran disponibilidad de colores.
Facilidad de uso: cortable con un cíter o tijeras.
Buena resistencia mecánica y a los rayos UV.
Duración en el tiempo.
Precio competitivo.
Reciclable en el plástico.

SERIE DECO

Alluminio Anodizzato Lucido

Anodised Polished Alu/ Alu Anodisé Poli/ Alu Anodizado Brillo

Alluminio Anodizzato Lucido :
Prima di poter essere anodizzato, subisce un trattamento meccanico di lucidatura a specchio per eliminare ogni imperfezione tipica del processo di estrusione e conferire al profilo una finitura brillante a specchio, altamente decorativa. Viene sottoposto all'ossidazione anodica per immersione in vasche elettrolitiche e successivamente nelle vasche del colore che viene poi fissato nelle ultime vasche del lungo processo anodico, dando vita ad uno strato protettivo che protegge il colore. Arcansas garantisce uno spessore del trattamento da 5 a 10 µm secondo il tipo di colore per la massima qualità di brillantezza. Arcansas impiega la lega 6063 per ottenere una colorazione brillante ed uniforme dal massimo grado di finitura estetica oltre che funzionale. Colori disponibili : similcromo, ramato, titanio, similottone.

Vantaggi :
Altamente decorativo.
Facilmente lavorabile grazie alla duttilità di questa lega.
Elevato aumento della resistenza alla corrosione acida, salina o agenti atmosferici rispetto all'alluminio naturale.
Buona resistenza ai graffi (non propria dell'alluminio naturale).
Adatto per interni ed esterni.
Riciclabile nell'alluminio.

Anodised Polished Aluminum :
Before being anodised, it undergoes a mechanical mirror polishing treatment to eliminate any imperfections typical of the extrusion process and give the profile a highly decorative mirror finish. It is then dipped in the electrolytic tanks for anodic oxidation and subsequently in the colour tanks to create a protective layer that protects the profile. For the maximum quality of brilliance, Arcansas guarantees a treatment thickness of 5 to 10 µm depending on the colour type. Arcansas uses alloy 6063 to obtain a bright and uniform colouring with the highest degree of aesthetic as well as functional finish.
Available colours: chrome-effect, copper, titanium and brass-effect.

Advantages :
Highly decorative.
Easily workable thanks to the ductility of this alloy.
High increase in resistance to acid, saline or weathering corrosion compared to natural aluminum.
Good scratch resistance (not typical of natural aluminum).
Suitable for indoors and outdoors.
Recyclable.

Aluminium Anodisé Poli :
Avant d'être anodisé, il subit un traitement mécanique de polissage effet miroir pour éliminer les imperfections typiques au profilé une finition miroir très décorative. Il est soumis à une oxydation anodique par immersion dans des réservoirs électrolytiques puis dans les réservoirs de couleur celle-ci sera ensuite fixée grâce au passage dans les derniers réservoirs de ce long processus d'anodisation, créant une couche protectrice qui protège la couleur. Arcansas garantit une épaisseur de traitement de 5 à 10 µm selon le type de couleur pour une qualité de brillance maximale. Arcansas utilise l'alliage 6063 pour obtenir une coloration brillante et uniforme au plus grand degré d'esthétique tout en étant fonctionnelle. Couleurs disponibles: effet chrome, cuivre, titane, effet laiton.

Les avantages :
Très décoratif.
Facile à travailler grâce à la ductilité de cet alliage.
Grande augmentation de la résistance à la corrosion acide, saline ou aux intempéries par rapport à l'aluminium naturel.
Bonne résistance aux rayures (non typique de l'aluminium naturel).
Bonne résistance au rayage (no es típico del aluminio natural).
Buena resistencia al rayado (no es típico del aluminio natural).
Adecuado para interiores y exteriores.
Reciclable en aluminio.

Aluminio Anodizado Brillo :
Antes de ser anodizado, se somete a un tratamiento mecánico de pulido espejo para eliminar las imperfecciones típicas del proceso de extrusión y dar al perfil un acabado brillante espejo, muy decorativo. Se somete a oxidación anódica por inmersión en tanques electrodepositivos y posteriormente en los tanques del color que luego se fija en los últimos tanques del largo proceso anódico, creando una capa protectora que protege el color. Arcansas garantiza un espesor de tratamiento de 5 a 10 µm según el tipo de color para obtener la máxima calidad de brillo. Arcansas utiliza la aleación 6063 para obtener una coloración brillante y uniforme con el más alto grado de acabado estético además que funcional.
Colores disponibles: aspecto cromo, cobreado, titanio, aspecto latón.

Ventajas :
Altamente decorativo.
Fácilmente mecanizable gracias a la ductilidad de esta aleación.
Alto aumento de la resistencia a la corrosión ácida, salina o por agentes atmosféricos en comparación con el aluminio natural.
Buena resistencia al rayado (no es típico del aluminio natural).
Adecuado para interiores y exteriores.
Reciclable en el aluminio.

Alluminio Anodizzato Spazzolato

Anodised Brushed Alu/Alu Anodisé Brossé/ Alu Anodizado Cepillado

Alluminio Anodizzato Spazzolato :
Prima di poter essere anodizzato, subisce un trattamento meccanico di speciale spazzolatura in acqua per eliminare ogni imperfezione tipica del processo di estrusione e conferire al profilo una finitura spazzolata e dai riflessi lucidi, altamente decorativa. Viene sottoposto all' ossidazione anodica per immersione in vasche elettrolitiche e successivamente nelle vasche del colore che viene poi fissato nelle ultime vasche del lungo processo anodico, dando vita ad uno strato protettivo che protegge il colore. Arcansas garantisce uno spessore del trattamento da 10 a 15 µm secondo il tipo di colore per la massima qualità di protezione. Arcansas impiega la lega 6060 per ottenere una colorazione spazzolata e dai riflessi variegati per il massimo grado di finitura estetica oltre che funzionale. Colori disponibili : argento, ramato, titanio, nero.

Vantaggi :
Altamente decorativo.
Facilmente lavorabile grazie alla duttilità di questa lega.
Elevato aumento della resistenza alla corrosione acida, salina o agenti atmosferici rispetto all' alluminio naturale.
Buona resistenza ai graffi (non propria dell'alluminio naturale).
Adatto per interni ed esterni.
Riciclabile nell' alluminio.

Advantages :
Highly decorative.
Easily workable thanks to the ductility of this alloy.
High increase in resistance to acid, saline or weathering corrosion compared to natural aluminum.
Good scratch resistance (not typical of natural aluminum).
Suitable for indoors and outdoors.
Recyclable.

Anodised Brushed Aluminum :
Before being anodised, it undergoes a mechanical treatment of special brushing in water to eliminate any imperfection typical of the extrusion process and give the profile a highly decorative brushed finish with glossy reflections. It is then dipped in the electrolytic tanks for anodic oxidation and subsequently in the colour tanks to create a protective layer that protects the profile. For the maximum quality of brilliance, Arcansas guarantees a treatment thickness of 10 to 15 µm depending on the colour type. For the maximum degree of aesthetic as well as functional finish, Arcansas uses the alloy 6060 to obtain a brushed color and variegated reflections. Available colours: silver, copper, titanium and black.

Les avantages :
Très décoratif.
Facile à travailler grâce à la ductilité de cet alliage.
Grande augmentation de la résistance à la corrosion acide, saline ou aux intempéries par rapport à l'aluminium naturel.
Bonne résistance aux rayures (non typique de l'aluminium naturel).
Convient pour l'intérieur et l'extérieur.
Recyclable en aluminium.

Aluminium Anodisé Brossé :
Avant d'être anodisé, il subit un traitement mécanique de brossage spécial à l'eau pour éliminer toute imperfection typique du processus d'extrusion et donner au profil une finition brossée très décorative aux reflets brillants. Il est soumis à une oxydation anodique par immersion dans des réservoirs électrolytiques puis dans les réservoirs de couleur ou celle-ci est fixée dans les derniers réservoirs de ce long processus anodique, créant une couche protectrice qui protège la couleur. Arcansas garantit une épaisseur de traitement de 10 à 15 µm selon le type de couleur pour une protection de la plus grande qualité. Arcansas utilise l'alliage 6060 pour obtenir une couleur brossée et des reflets moirés avec un degré maximal de finition esthétique et fonctionnelle. Couleurs disponibles: argent, cuivre, titane, noir.

Ventajas :
Altamente decorativo.
Fácilmente mecanizable gracias a la ductilidad de esta aleación.
Alto aumento de la resistencia a la corrosión acida, salina o por agentes atmosféricos en comparación con el aluminio natural.
Buena resistencia al rayado (no es típico del aluminio natural).
Adecuado para interiores y exteriores.

Alluminio Verniciato Powder Coated Alu/ Alu Verni/ Alu Pintado

Alluminio Verniciato :

Ottenuti per estrusione e successiva verniciatura a polveri epossidiche elettrostatiche invrudite a forno, sono precedentemente trattati con uno speciale procedimento di sgrassaggio e preverniciatura per conferire resistenza e massima adesione alla successiva verniciatura. Arcansas garantisce uno spessore minimo di 80 micron e una brillantezza di 100 gloss. Disponibile nei colori bianco RAL 9003 e nero RAL 9005.

Vantaggi :

Finitura estetica di pregio.
Resistente ai raggi ultravioletti.
Resistente ai graffi.
Riciclabile.

Powder Coated Aluminum :

Obtained by extrusion and subsequent painting with electrostatic epoxy powders hardened in the oven, they are previously treated with a special degreasing and pre-painting process to give resistance and maximum adhesion to the subsequent painting. Arcansas guarantees a minimum thickness of 80 microns and a gloss of 100 gloss. Available in white RAL 9003 and black RAL 9005.

Advantages :

Fine aesthetic finish.
Resistant to ultraviolet rays.
Scratch resistant.
Recyclable.

Aluminium Verni :

Obtenu par extrusion et ultérieur vernissage avec des poudres époxy électrostatiques durcies au four, ils sont préalablement traités par un procédé spécial de dégraissage et de pré-peinture pour donner une résistance et une adhérence maximale à la peinture suivante. Arcansas garantit une épaisseur minimale de 80 microns et un brillant de 100 brillants. Disponible en blanc RAL 9003 et noir RAL 9005.

Les avantages :

Finition esthétique de haute qualité.
Résistant aux rayons ultraviolets.
Résistant aux rayures.
Recyclable.

Aluminio Pintado :

Obtenidos por extrusión y pintura sucesiva con polvos epoxídicos electrostáticos endurecidos en el horno, se tratan previamente con un proceso especial de desengrasado y pre-pintura para dar resistencia y máxima adhesión a la pintura posterior. Arcansas garantiza un espesor mínimo de 80 micras y un brillo de 100 gloss. Disponible en los colores blanco RAL 9003 y negro RAL 9005.

Ventajas :

Acabado estético de alta calidad.
Resistente a los rayos ultravioleta.
Resistente a los arañazos.
Reciclable.

Alluminio Verniciato Nero/ Black Powder Coated Alu/ Aluminium Verni Noir/ Aluminio Pintado Negro

Acciaio Inox e Ottone

Stainless Steel and Brass/Acier Inoxydable et Laiton/
Acero inoxidable y latón

Acciaio Inox 304 :
Ottenuti per profilatura nella lega più nobile disponibile oggi sul mercato grazie alla sua elevatissima inossidabilità e resistenza agli agenti meccanici e atmosferici, ha un aspetto elegante e solido.
Adatto in edilizia e altamente protettivo e decorativo.

Vantaggi :
Buona lavorabilità.
Idoneo per interni ed esterni.
Fornito con pellicola protettiva per la massima lavorabilità senza graffi o macchie.
Manutenzione assente.

304 Stainless Steel :
Obtained by profiling in the most noble alloy available on the market today, thanks to its very high rust resistance and resistance to mechanical and atmospheric agents, it has an elegant and solid appearance.
Suitable for construction and highly protective and decorative.

Advantages :
Good workability.
Suitable for indoors and outdoors.
Supplied with protective film for maximum workability without scratches or stains.
No maintenance.

Acier Inoxydable 304 :
Obtenu par profilage dans l'alliage le plus noble disponible sur le marché aujourd'hui grâce à sa très haute résistance à la rouille et sa résistance aux agents mécaniques et atmosphériques, il a un aspect élégant et solide. Convient pour la construction, il est hautement protecteur et décoratif.

Les avantages :
Bonne maniabilité.
Convient pour l'intérieur et l'extérieur.
Fourni avec un film protecteur pour une ouvrabilité maximale sans rayures ni taches.
Aucun entretien.

Acer Inoxidable 304 :
Obtenido por perfiladura en la aleación más noble disponible en el mercado hoy en día gracias a su elevada resistencia a la oxidación y resistencia a los agentes mecánicos y atmosféricos, tiene un aspecto elegante y sólido. Apto para construcción y altamente protector y decorativo.

Ventajas :
Buena mecanizabilidad.
Adecuado para interiores y exteriores.
Se suministra con película protectora para una máxima mecanizabilidad sin arrañazos ni manchas.
No necesita mantenimiento.

Ottone Lucido :
Profili ottenuti da estrusione e lucidati
meccanicamente con paste lucidanti.
Ottima resistenza agli agenti chimici
e alle sollecitazioni meccaniche. La
superficie brillante e il colore tipico
dell'ottone rendo questi profili alta-
mente adatti in ambito decorativo.

Vantaggi :
Per uso interno.
Altamente inossidabile.
Scarsa manutenzione.

Ottone Naturale :
Profili ottenuti per estrusione e non lucidati meccanicamente con paste lubrificanti. Ottima resistenza agli agenti chimici e alle sollecitazioni meccaniche. La superficie opaca e il colore tipico dell'ottone rendono questi profili non invasivi e adatti in ambito decorativo.

Vantaggi :
Adatto al calpestio.
Per uso interno o esterno.
Altamente inossidabile.
Scarsa manutenzione.

Polished Brass :
Profiles obtained by extrusion and mechanically polished with polishing pastes. Excellent resistance to chemical agents and mechanical stress. The bright surface and the typical color of the brass make these profiles highly suitable in the decorative field.

Advantages :
For internal use.
Highly stainless.
Poor maintenance.

Natural Brass :
Profiles obtained by extrusion and not mechanically polished with polishing pastes. Excellent resistance to chemical agents and mechanical stress. The opaque surface and the typical color of the brass make these profiles non-invasive and suitable for decorative purposes.

Advantages :	Suitable for walking. For indoor or outdoor use. Highly stainless. Poor maintenance.	Adapté à des fins décoratives. Pour un usage intérieur ou extérieur. Hautement inoxydable. Très peu d'entretien.
Vantaggi :		

Laiton Poli :
Profilés obtenus par extrusion et polis mécaniquement avec des pâtes à polir. Excellente résistance aux agents chimiques et aux contraintes mécaniques. La surface brillante et la couleur typique du laiton rendent ces profilés très appropriés dans le domaine décoratif.

Les avantages :
Pour usage interne.
Hautement inoxydable.
Très peu d'entretien.

Ventajas :
Para uso interno.
Altamente inoxidable.
Mantenimiento mínimo.

Laiton Naturel :
Profils obtenus par extrusion et ne pas polis mécaniquement avec des pâtes à polir. Excellente résistance aux agents chimiques et aux contraintes mécaniques. La surface opaque et la couleur typique du laiton rendent ces profils non contraignants et adaptés à des fins décoratives.

Vantaggi :	Adapté au piétinement. Pour un usage intérieur ou extérieur. Hauteur inoxydable. Très peu d'entretien.
Ventajas :	Apto para pisoteo. Para uso interno o externo. Altamente inoxidable. Mantenimiento mínimo.

Profili in PVC Extra Lucido

Super Shiny PVC profiles/ Profilés en PVC extra brillant/
Perfiles en PVC extra brillante

Profili in PVC extralucido in massa :
Speciale lavorazione che conferisce una superficie brillantissima come fosse alluminio verniciato a polveri epossidiche.
Rappresentano la soluzione ideale per professionisti e DIYers grazie alla elevata qualità estetica e alla facilità di utilizzo. Disponibile in moltissimi colori oltre agli eleganti bianco, nero e trasparente. Quest'ultima consente l'abbinabilità con qualsiasi colore di fondo.

Vantaggi :
Grande disponibilità di colori vivaci e decorativi.
Facilità d'uso: tagliabile con taglierino o forbici.
Buona resistenza meccanica e ai raggi UV.
Durata nel tempo.
Riciclabile nella plastica.

Super shiny mass-coloured PVC profiles :
Special processing that gives a very shiny surface as if it were epoxy powder coated aluminum.
They represent the ideal solution for professionals and DIYers thanks to their high aesthetic quality and ease of use. Available in many colours in addition to the elegant white, black and transparent. The latter allows it to be combined with any background colour.

Advantages :
Great availability of bright and decorative colors.
Ease of use: can be cut with a cutter or scissors.
Good mechanical and UV resistance.
Duration in time.
Recyclable.

Profilés en PVC extra brillant en vrac :
Traitement spécial qui donne une surface très brillante comme s'il s'agissait d'aluminium enduit de poudre époxy. Ils représentent la solution idéale pour les professionnels et les bricoleurs grâce à leur haute qualité esthétique et leur facilité d'utilisation. Disponible en plusieurs couleurs en plus des élégants blanc, noir et transparent. Ce dernier permet de le combiner avec n'importe quelle couleur de fond.

Les avantages :
Grande disponibilité de couleurs vives et décoratives.
Facilité d'utilisation: peut être coupé avec un cutter ou des ciseaux.
Bonne résistance mécanique et aux UV.
Durée dans le temps.
Recyclable en plastique.

Perfiles en PVC extra brillante en masa :
Procesamiento especial que proporciona una superficie muy brillante como si fuera aluminio pintado con polvo epoxi. Representan la solución ideal para profesionales y aficionados al bricolaje gracias a su alta calidad estética y facilidad de uso. Disponible en muchos colores además del elegante blanco, negro y transparente. Este último permite combinarlo con cualquier color de fondo.

Ventajas :
Gran disponibilidad de colores brillantes y decorativos.
Facilidad de uso: se puede cortar con un cíter o tijeras.
Buena resistencia mecánica y a los rayos UV.
Duración en el tiempo.
Reciclable en el plástico.

SERIE NATURAL TOUCH

Alluminio effetto pietra

Stone Finish Alu/ Alu Effet Pierre/ Alu Efecto Piedra

Alluminio Effetto pietra :

Ottenuti per estrusione e successiva verniciatura a polveri epossidiche elettrostatiche, sono precedentemente trattati con uno speciale procedimento di sgrassaggio e preverniciatura per conferire resistenza e massima adesione alla successiva verniciatura. La nuova linea di angolari in alluminio Arcansas NATURAL TOUCH dona agli ambienti un carattere unico e ricerato, grazie alla particolare effetto materico granuloso. Queste finiture si adattano perfettamente alle nuove tendenze di arredamento delle ceramiche effetto pietra, con finiture opache e naturali. Arcansas garantisce uno spessore minimo di 80 micron, disponibile nei colori pietra naturali.

Vantaggi :

Finitura estetica di pregio.
Resistente ai raggi ultravioletti.
Molto resistente ai graffi.
Riciclabile.

Stone Finish Aluminum :

Obtained by extrusion and subsequent painting with electrostatic epoxy powders, they are previously treated with a special degreasing and pre-painting process to give resistance and maximum adhesion to the subsequent painting. The new Arcansas NATURAL TOUCH aluminum corner line gives the rooms a unique and refined character, thanks to the particular grainy material effect. These finishes are perfectly suited to the new furnishing trends of stone effect ceramics, with matte and natural finishes.

Arcansas guarantees a minimum thickness of 80 microns, available in natural stone colors.

Advantages :

Fine aesthetic finish.
Resistant to ultraviolet rays.
Very resistant to scratches.
Recyclable.

Aluminium Effet Pierre :

Obtenus par extrusion et peinture ultérieure avec des poudres époxy électrostatiques, ils sont préalablement traités par un procédé spécial de dégraissage et de pré-peinture pour donner une résistance et une adhérence maximale à la peinture suivante. La nouvelle ligne d'angles en aluminium Arcansas NATURAL TOUCH confère aux pièces un caractère unique et raffiné, grâce à l'effet particulier du matériau granuleux. Ces finitions sont parfaitement adaptées aux nouvelles tendances d'aménagement du céramique effet pierre, avec des finitions mates et naturelles. Arcansas garantit une épaisseur minimale de 80 microns, disponible en couleurs de pierre naturelle.

Les avantages :

Finition esthétique de haute qualité.
Résistant aux rayons ultraviolets.
Très résistant aux rayures.
Recyclable.

Aluminio Efecto Piedra :

Obtenidos por extrusión y pintura sucesiva con polvos epoxídicos electrostáticos, se tratan previamente con un proceso especial de desengrasado y pre-pintura para dar resistencia y máxima adhesión a la pintura posterior. La nueva línea de ángulos en aluminio Arcansas NATURAL TOUCH le da a los espacios un carácter único y refinado, gracias al particular efecto de material granulado. Estos acabados se adaptan perfectamente a las nuevas tendencias de decoración de cerámica con efecto de piedra, con acabados mate y natural. Arcansas garantiza un espesor mínimo de 80 micras, disponible en colores de piedra natural.

Ventajas :

Acabado estético de alta calidad.
Resistente a los rayos ultravioleta.
Muy resistente a los arañazos.
Reciclable.

SERIE FRIENDLY

AC ARCANSAS®

Paraspigolo *Friendly*

Friendly Corner Profiles/ Protecteur D'angle Friendly/ Esquinero Friendly

Paraspigolo Friendly :
Realizzato per estrusione in PVC espanso per conferire flessibilità e minor rigidità a vantaggio della protezione. L'angolare Friendly viene successivamente ricoperto mediante pellicole antiriflesso che derivano direttamente dalle tecnologie di rivestimento utilizzate nell'industria dell'arredamento. Sono caratterizzate pertanto da elevato effetto cromatico decorativo e altissima resistenza all'acqua, umidità, abrasione.
Nella versione autoadesiva, il montaggio è ancora più semplice, rapido e sicuro.

Vantaggi :
Antiriflesso.
Resistente all'acqua.
Nella versione autoadesiva è applicabile sulle pareti vernicate di qualsiasi tipo.
Riciclabile nella plastica.

Friendly Corner Profiles :
Made by extrusion in expanded PVC to give flexibility and less rigidity for the benefit of protection.
The "Friendly" series corner is then covered with anti-scratch films that derive directly from the coating technologies used in the furniture industry. A high decorative colour effect and very high resistance to water, humidity and abrasion are therefore the specific characteristic of this product.
In the self-adhesive version, assembly is even simpler, faster and safer.

Advantages :
Scratchproof.
Waterproof.
In the self-adhesive version, it is applicable on painted walls of any type.
Recyclable.

Protecteur d'angle Friendly :
Fabriqué par extrusion dans du PVC expansé pour donner flexibilité et moins de rigidité au profit de la protection. La cornière d'angle « Friendly » est ensuite recouverte d'un film anti-rayures issu directement des technologies de revêtement utilisées dans l'industrie du meuble. Ils se caractérisent donc par un effet de couleur décoratif élevé et une très haute résistance à l'eau, à l'humidité et à l'abrasion. Dans la version autocollante, le montage est encore plus simple, plus rapide et plus sûr.

Les avantages :
Résistant aux rayures.
Étanche.
Dans la version autocollante, il est applicable sur les murs peints de tout type.
Recyclable en plastique.

Esquinero Friendly :
Hecho por extrusión en PVC expandido para dar flexibilidad y menos rigidez en beneficio de la protección. El perfil Friendly sucesivamente se recubre con películas antiarañazos que se derivan directamente de las tecnologías de revestimiento utilizadas en la industria del mueble. Por lo tanto, se caracterizan por un alto efecto decorativo de color y una resistencia muy alta al agua, la humedad y la abrasión.

Ventajas :
Resistente a los arañazos
Impermeable.
En la versión autoadhesiva es aplicable en paredes pintadas de cualquier tipo.
Reciclable en el plástico.

Alluminio Adesivo Adhesive Alu/ Alu Adhésif/ Alu Adhesivo

Alluminio Adesivo :
Hanno le medesime caratteristiche tecnico meccaniche dei precedenti profili in alluminio. Viene reso adesivo e pronto al fissaggio senza viti né colla grazie al nastro biadesivo Tesa applicato da Arcansas sulla superficie non in vista.

Vantaggi :
Estrema facilità e rapidità di posa.
Fissaggio sicuro su ogni superficie come pareti, mobili, complementi, eventi di arredo in metallo vetro plastica.
Nessuna spesa per viti chiodi colla.
Riciclabile nei metalli.

Adhesive Aluminum :
They have the same technical-mechanical characteristics as the previous aluminum profiles. The Tesa double-sided tape applied by Arcansas on the unseen surface makes the profile adhesive and ready for fixing without screws or glue.

Advantages :
Extreme ease and speed of installation.
Safe fixing on any surface such as walls, furniture, furnishing accessories in metal glass plastic.
No expense for glue nails screws.
Recyclable in metals.

Aluminium Adhésif :
Ils ont les mêmes caractéristiques technico-mécaniques que les précédents profilés en aluminium. Il est adhésif et prêt à être fixé sans visse ni colle grâce au ruban adhésif double face Tesa appliquée par Arcansas sur la surface non visible.

Les avantages :
Extrême facilité et rapidité d'installation.
Fixation sûre sur toutes surfaces telles que murs, meubles, accessoires d'ameublement en plastique verre métal.
Aucune dépense pour de visse, clous et de colle.
Recyclable en métaux.

Aluminio Adhesivo :
Tienen las mismas características técnico-mecánicas que los perfiles de aluminio anteriores. Se vuelve adhesivo y listo para ser fijado sin tornillos ni pegamento gracias a la cinta de doble cara Tesa aplicada por Arcansas en la superficie de manera invisible.

Ventajas :
Extrema facilidad y rapidez de instalación.
Fijación segura en cualquier superficie como paredes, muebles, accesorios de decoración en metal, vidrio, plástico.
No hay gastos por pegamento clavos tornillos.
Reciclable en los metales.

PVC Autoadesivo

Self-adhesive PVC/ Profilés Auto-adhésifs en PVC/ Perfiles Autoadhesivos en PVC

Profilo Autoadesivo in PVC in massa :
Hanno le medesime caratteristiche tecnico meccaniche dei precedenti profili in PVC extraluso in massa. Vengono resi autoadesivi e pronti al fissaggio senza colla grazie al nastro biadesivo Tesa applicato da Arcansas sulla superficie non in vista.

Vantaggi :
Estrema facilità e rapidità di posa. Fissaggio sicuro su ogni superficie come pareti, mobili, complementi, eventi di arredo in metallo vetro plastica. Nessuna spesa per viti, chiodi, colla. Riciclabile nella plastica.

Self-adhesive mass-coloured PVC Profiles :
They have the same technical-mechanical characteristics as the previous mass-extruded PVC profiles. The Tesa double-sided tape applied by Arcansas on the non-visible surface makes the profile self-adhesive and ready for fixing without glue.

Advantages :
Extreme ease and speed of installation. Safe fixing on any surface such as walls, furniture, metal furnishing accessories, plastic glass. No expense for screws, nails, glue. Recyclable.

Profilés Auto-adhésifs en PVC en vrac :
Ils ont les mêmes caractéristiques technique-mécaniques que les précédents profilés PVC extra luxe en masse. Ils sont rendus autocollants et prêts à être fixés sans colle grâce au ruban adhésif double face Tesa appliquée par Arcansas sur la surface non visible.

Les avantages :
Extrême facilité et rapidité d'installation. Fixation sûre sur toutes surfaces telles que murs, meubles, accessoires d'ameublement en métal, verre plastique. Aucune dépense pour visse, clous, colle. Recyclable en plastique.

Perfiles Autoadhesivos en PVC en masa :
Tienen las mismas características técnico-mecánicas que los perfiles de PVC extruidos en masa. Se vuelven autoadhesivos y listos para su fijación sin pegamento gracias a la cinta de doble cara Tesa aplicada por Arcansas en la superficie de manera invisible.

Ventajas :
Extrema facilidad y rapidez de instalación. Fijación segura en cualquier superficie como paredes, muebles, accesorios metálicos, vidrio plástico. Sin gastos para tornillos, clavos, pegamento. Reciclable en el plástico.

Lamiere Metal Sheets/ Tôles/ Chapas

Lamiere :
Lamiere in alluminio ed acciaio, con differenti finiture e lavorazioni superficiali. Inossidabili o verniciabili, facilmente lavorabili. Il prodotto ideale per infinite soluzioni per l'hobbista e il professionista.
Sono fornite in confezioni blister, a tutela del materiale e dell'utilizzatore.

Vantaggi :
Facilmente piegabili o modellabili. Quelle in alluminio si tagliano con le forbici.

Metal-sheets :
Aluminum and steel metal-sheets, with different finishes and surface processes. Stainless or paintable, easily workable. The ideal product for infinite solutions for the hobbyist and the professional.
They are supplied in blister packs, to protect the material and the user.

Advantages :
Easily foldable or mouldable.
The aluminum ones can be cut with scissors.

Tôles :
Tôles d'aluminium et d'acier, avec différentes finitions et motifs en surface. Inoxydable, pouvant être verni, et facile à travailler. Le produit idéal pour de multiples solutions autant pour l'amateur que le professionnel.
Ils sont fournis sous blister, pour protéger le matériel et l'utilisateur.

Les avantages :
Facilement pliable ou modelable.
Celles en aluminium se coupent aux ciseaux.

Chapas :
Chapas de aluminio y acero, con diferentes acabados y procesos superficiales. Inoxidable o pintable, fácilmente mecanizable. El producto ideal para soluciones infinitas para el aficionado del bricolaje y para el profesional. Se suministran en blísters, para proteger el material y el usuario.

Ventajas :
Fácilmente plegable o moldeable.
Las chapas de aluminio se cortan con las tijeras.

Quicktech Connections/Connexions/Conexiones

Quickteck :
Sistema di giunzione per profili in acciaio e alluminio a pressione. Realizzate in resina pregiata "ABS". Robustissime. La gamma è resistente agli agenti atmosferici, raggi UVA, al sole, alle temperature estive o invernali, agli urti. Consente la costruzione di una struttura in modo veloce, rapido, pulito ed economico.

Vantaggi :
Permette la giunzione rapida dei profili.
Non servono colla o viti.

Quickteck :
Jointing system for steel and aluminum pressure profiles. Made of precious "ABS" resin. Resilient. The range is resistant to atmospheric agents, UVA rays, sun, summer or winter temperatures, shocks. It allows the construction of a structure quickly, quickly, cleanly and economically.

Advantages :
It allows the rapid joining of profiles.
No glue or screws needed.

Quickteck :
Système de joints pour profilés de pression en acier et aluminium. Fabriqué en résine précieuse "ABS". Extrêmement solide. La gamme est résistante aux agents atmosphériques, aux rayons UV, au soleil, aux températures estivales ou hivernales, aux chocs. Il permet la construction d'une structure rapidement, proprement et à un prix modique.

Les avantages :
Il permet la jonction rapide des profilés.
Aucune colle ni visse sont nécessaires.

Quickteck :
Sistema de unión para perfiles de acero y aluminio a presión. Realizados en resina fina "ABS". Muy resistente. La gama es resistente a agentes atmosféricos, rayos UVA, sol, temperaturas de verano o invierno, golpes. Permite la construcción de una estructura de forma rápida, veloz, limpia y económica.

Ventajas :
Permite la unión rápida de perfiles. No se necesita pegamento ni tornillos.

Nastro Antisdrucciolo

Anti-Slip Adhesive Tape/ Antidérapant/ Cinta Adhesiva Antideslizante

Antisdrucciolo :

I Nastri Antiscivolo autoadesivi sono la risposta più efficace, semplice ed economica per sanare superfici sdruciolate eliminando il rischio di pericolose cadute per scivolamento. Un rischio che andrebbe valutato con attenzione sia in ambienti domestici, che industriali. Le superfici a rischio più frequenti in casa sono ad esempio le vasche da bagno o le docce. In casa o in esterni superfici potenzialmente pericolose sono le scale. La gamma include anche modelli per utilizzo a piedi nudi. Colori : nero, bianco, trasparente, segnaletico.

Vantaggi :

Utilizzabile in interni ed esterni su superfici lisce, non porose. Facile, veloce, pulito, economico.

Anti-slip adhesive tape :

Self-adhesive anti-slip tapes are the most effective, simple and economical answer to remedy slippery surfaces, eliminating the risk of dangerous falls due to slipping. A risk that should be carefully evaluated in both domestic and industrial environments. The most risky indoor surfaces are, for example, bathtubs or showers as well as stairs that are dangerous surfaces both for indoor and outdoor. Our range also includes item suitable for barefoot. Colours: black, white, transparent, warning tape.

Advantages :

Can be used indoors and outdoors on smooth, non-porous surfaces. Easy, fast, clean, cheap.

Antidérapant :

Les rubans antidérapants auto-adhésifs sont la réponse la plus efficace, simple et économique pour remédier aux surfaces glissantes, éliminant le risque de chutes dangereuses dues au glissement. Un risque qui doit être soigneusement évalué dans les environnements domestiques et industriels. Les surfaces à risque les plus fréquentes dans la maison sont, par exemple, les baignoires ou les douches. À la maison ou à l'extérieur, les surfaces potentiellement dangereuses sont les escaliers. Les modèles sont divisés par utilisation pieds nus ou chaussés. Couleurs: noir, blanc, transparent, signalisation

Les avantages :

Peut être utilisé à l'intérieur et à l'extérieur sur des surfaces lisses et non poreuses. Facile, rapide, propre, pas cher.

Cinta Adhesiva Antideslizante :

Las cintas antideslizantes autoadhesivas son la respuesta más eficaz, simple y económica para corregir superficies resbaladizas, eliminando el riesgo de caídas peligrosas debido al deslizamiento. Un riesgo que debe evaluarse cuidadosamente sea en entornos domésticos que industriales. Las superficies de riesgo más frecuentes en el hogar son, por ejemplo, bañeras o duchas. En el hogar o al aire libre, las superficies potencialmente peligrosas son las escaleras. Los modelos se dividen por uso descalzo o calzado. Colores: negro, blanco, transparente, señalización.

Ventajas :

Se puede usar en interiores y exteriores en superficies lisas, no porosas. Fácil, rápido, limpio y económico.

Profiles for hardware/diy

PRODUCT
RANGE
IN THIS
CATALOGUE

Profiles for tiling

-  **Facilitate** the installation and increase life time of the tile
-  **Hide** the rough outer edge of the tile
-  **Make safe and finish** the external edges of columns, niches and shelves
-  Ideal for **wall** and **floor**
-  Available in **stainless steel, aluminum** and **PVC** to meet the needs of any project

Hygienic cove profiles

-  Prevent **water and mold** from **infiltrating** through the wall edge of the shower, tub and sink
-  **Conceal the sealant** that deteriorates over time
-  Concave shape **prevents the deposit of dirt and bacteria**, facilitating the cleaning
-  **White gloss finish** with a **porcelain effect** that does not yellow
-  **Immediate application** in the self-adhesive version

Flooring profiles

-  They **join and harmonize** coplanar floors or with level differences
-  **Non-slip knurled surface**
-  Adhesive fixing for a **do-it-yourself, quick and simple installation**
-  **Fixing with rails** suitable for wooden floors
-  **Safe fixing** for high stability in civil and high traffic environments
-  **Fixing screws included** of the same colour of the matched profile

Profiles for hardware/diy

-  **Lightweight, handy** to transport
-  **Variety of cross-sections** for do-it-yourself projects
-  **Easy** to drill, cut, weld and paint
-  Exclusive colour ranges: **we are the only one to offer glossy finish PVC and mat black aluminium**
-  **Color fixed by anodic bath** that does not deteriorate

agents for the sales
network (Italian
and foreign market)

AN INTERNATIONAL NETWORK

Not only Italy: we are present on the international market with distribution centers in South America, France and Belgium. By means of a capillary network of agents and merchandisers we constantly support each of our customer, anywhere in the world.

To choose us means to start a path of shared growth. We **work together** with our customers to understand which products and display units suit best to their business and the most effective approach to get the **best performance on the market together with high profitability.**

We care and want to solve the multiple needs of our customers. Each one represents a unique and exclusive reality. We dedicate them our constant attention and care for the details. We support them with passion and continuity, establishing one **real partnership** to guarantee medium and long-term results.

We organise **training courses for sales people and sector heads**, in co-operation with important partners in the large retail chains. The courses develop

skills and professionalism on the use of the product, on fitting systems and application sectors, in order to **propose to the customer the best solution.**

I design every day functional solutions targeted for each customer. My sales manual? **listen** and relate myself with each one of them, to **understand specific needs and targets.**

display units /

profit

the character is recognized by its profile

+30%

sales increase

+25%

increase in profitability
per linear meter

We create **extremely modular and customized display units** for every need, thanks to our thirty years experience in the retail management sector.

Our display units guarantee **high sales performances**, maximizing the profitability of the spaces. Their original and extremely communicative design has very direct objectives: to encourage the customer to stop, inform him and create a product culture, simplify and **make easy the buying process**.

+20%
increased visibility with dedicated graphics

HIGH PROFITABLE SPACE
Through a dedicated software, we study the **minimum job quantity**, ideal to guarantee the **maximum display capacity** and **ease of extraction of the product**

INFOGRAPHIC AND VIDEO TUTORIAL to **support the un-assisted sales** with instructions and **suggestions for product use**

GRAPHICS AND DEDICATED COMMUNICATION for an **increase of visibility** up to 20%

HIGH QUALITY CERTIFIED MATERIALS maximum guaranteed load of **300 kg** for each display level and **ease of assembly**

POCKETS FOR METAL SHEETS our display units are the only ones to have **pockets for metal sheets included** in the structure

CONTINUOUS SUPPORT so that the system always works to the best of its ability (remodeling), according to market trends

logistics /

promptness

the character is recognized by its profile

Our customers can dedicate themselves only to the important phases of their business: we take care of logistics. **We're the only contact** from transport to storage, to distribution.

100%

total traceability for each order up to the client

48h

average time for order execution in Italy

We have technologically advanced systems for the management and monitoring of the activities related to distribution, storage and transport. Specific softwares plan accurately the routes and stretch, to ensure the **maximum precision and punctuality in the distribution of the goods.**

logistics /

YOUR ORDER ALWAYS UNDER CONTROL

We receive the orders via palmar telematic devices, with which we proceed with loading and unloading of the goods through reading of barcodes on the products. **Online tracking software** allows the customer to constantly monitor the progress of

the order and many others parameters useful for both the accounting of the service and the immediate identification of potential non-conformities, and therefore to their immediate management and solution.

packaging /

protection

the character is recognized by its profile

Choose the solution
that best fits your needs.
We offer our customers a range
of **packaging solutions made
purposely for every need:**
carton pallets, carton boxes,
customized pallets, tubes.

We make your orders special: we do not just
think about the delivery, but also about the
organisation inside the pallet, placing the
materials in a safe way and identifying them
with appropriate labels.

10

types of dedicated
different packagings

WORLDWIDE IN COMPLETE SECURITY

With our packagings and packages, it is possible to
make shipments all over the world in total safety,
keeping intact the quality of the goods transported.

The occupied space is optimized to a minimum:
our packagings, in fact, can be overlapped thanks
to the internal steel brackets.

CONDIZIONI COMMERCIALI**Ordini, pagamenti e consegne:**

1. Se non diversamente indicato, tutte le quantità sugli ordini vengono arrotondate alla quantità per convenzione del presente listino, altrimenti sarà applicato un incremento del prezzo di listino pari al 10%.
- La maggiorazione sarà del 20% nel caso in cui le quantità richieste siano inferiori a 10 pezzi. (Esempio di arrotondamento: da 11 a 14 arrotondamento a 10, da 15 a 19 arrotondamento a 20)
2. Pagamenti: prima fornitura, contrassegno.
3. Non saranno evase forniture con importi inferiori a €100,00 netto sconti.
4. Tutti gli ordini ricevuti entro le ore 11.00 verranno evasi entro le 24 ore.
5. Per consegne su appuntamento verificare con ufficio ordini fattibilità e sovrapprezzo.
6. Per spese di trasporto consultare l'ufficio commerciale di riferimento.

Spese varie:

1. Porto Franco per importi fattura superiori a € 250,00.
2. Per importi Fattura inferiori a € 250,00 verranno addebitati € 15,00 per spese amministrative.

Rischi nel trasporto: La merce viaggia a rischio e pericolo dell'acquirente, anche se in porto Franco.

CONDIZIONI GENERALI**Disegni e documenti descrittivi:**

Tutte le Fotografie, i disegni e i dati tecnici dei prodotti a catalogo hanno carattere informativo ed esemplificativo, quindi non impegnativo.

Modifiche:

Arcansas Profili s.r.l si riserva il diritto di apportare modifiche ai propri prodotti, imballi e quant'altro senza obbligo di preavviso.

Reclami:

I reclami per vizi o difetti apparenti (es. mancanza o danneggiamento) vanno presentati al corriere direttamente all'atto del ricevimento della merce e tempestivamente anche ad Arcansas Profili s.r.l, a mezzo riserva scritta sulla bolla di consegna specificando il tipo di anomalia, pena la decadenza di qualunque diritto di garanzia e del diritto di risarcimento.

I reclami per vizi o difetti non individuabili con un diligente controllo al momento del ricevimento della merce (vizi o difetti occulti), dovranno essere notificati, a pena di decadenza, ad Arcansas Profili s.r.l mediante lettera raccomandata A.R. entro sette giorni dalla scoperta del vizio o difetto e comunque non oltre 12 mesi dalla consegna.

Eventuali reclami non daranno diritto all'acquirente di sospendere o ritardare i pagamenti dovuti ad Arcansas Profili s.r.l.

Garanzia e vizi:

Arcansas Profili s.r.l si impegna a sostituire i prodotti che presentino vizi, mancanza di qualità o difetti di conformità ad essa imputabili, verificatisi entro dodici mesi dalla consegna dei prodotti, purché gli stessi siano stati presentati tempestivamente nelle modalità precedentemente riportate.

Arcansas Profili s.r.l. non garantisce la rispondenza dei prodotti a particolari specifiche o caratteristiche tecniche o la loro idoneità ad usi e/o utilizzi particolari, se non nella misura in cui tali caratteristiche siano state espressamente convenute nel contratto.

In caso di vizi apparenti e/o occulti riconosciuti da Arcansas Profili s.r.l., l'acquirente ha diritto esclusivamente alla sostituzione del prodotto, che verrà accettato in reso solo in confezioni originali, integre e complete.

Nessun prodotto potrà essere sostituito senza una preliminare autorizzazione scritta di Arcansas Profili s.r.l.

La presente garanzia è sostitutiva delle garanzie e responsabilità previste per legge ed esclude ogni altra responsabilità di Arcansas Profili s.r.l comunque originata dai prodotti venduti, salvo il caso di dolo e colpa grave.

Riserva di proprietà:

I prodotti rimangono di proprietà di Arcansas Profili s.r.l sino al loro completo pagamento da parte dell'acquirente.

Il mancato pagamento, anche parziale, dà diritto ad Arcansas Profili s.r.l di recuperare la merce oggetto di fornitura, anche se in deposito presso terzi.

Proprietà industriale e intellettuale:

Segni distintivi, fotografie di prodotti e/o tecnologie produttive e commerciali di Arcansas Profili s.r.l, non dovranno essere utilizzati o divulgati senza la previa autorizzazione scritta di Arcansas Profili s.r.l.

Privacy:

I dati personali anagrafici e fiscali acquisiti direttamente e/o tramite terzi da Arcansas Profili s.r.l (Località Cerbara, 61030 Terre Roveresche PU), titolare del trattamento, vengono utilizzati per esigenze contrattuali e di legge, nonché per consentire un'efficace gestione dei rapporti commerciali.

Tali dati potranno essere comunicati in Italia e/o all'estero alla rete di agenti Arcansas Profili s.r.l, società di factoring, istituti di credito, società di recupero crediti, società di assicurazione del credito, società di informazioni commerciali, professionisti e consulenti, trasportatori.

Foro competente:

Per eventuali controversie derivanti dalle condizioni commerciali e/o dagli ordini ad essa connessi, sarà esclusivamente competente il tribunale di Pesaro.

**BUSINESS TERMS****Orders, payments, and deliveries:**

1. Unless otherwise indicated, all quantities on orders are rounded to the quantity per agreement of this price list: otherwise, a 10% increase in the list price will be applied.
- The increase will be 20% if the required quantities are less than 10 items. (Example of rounding: from 11 to 14 rounding to 10, from 15 to 19 rounding to 20)
2. Payments: first delivery, cash on delivery.
3. Supplies with amounts less than €100.00 net of discounts will not be processed.
4. All orders received before 11:00 am will be processed within 24 hours.
5. For deliveries by appointment, check with the order feasibility and surcharge office.
6. For transport costs, consult the sales department of reference.

Other expenses:

1. FOB designated port for invoice amounts over €250.00.
 2. For Invoice amounts lower than €250.00, €15.00 will be charged for administrative expenses.
- Transportation risks: The goods travel at the buyer's risk, even if in an FOB designated port.

GENERAL CONDITIONS**Designs and descriptive documents:**

All the Photographs, designs, and technical data of the products in the catalogue are informative and illustrative, and so therefore not binding.

Modifications:

Arcansas Profili s.r.l reserves the right to make changes to its own products, packaging, and anything else without notice.

Complaints:

Claims for apparent defects (e.g. missing parts or damage) must be presented to the courier directly upon receipt of the goods and also promptly to Arcansas Profili s.r.l, by means of a written reservation on the delivery note specifying the type of anomaly, under penalty of forfeiture of any warranty claims and compensation claims.

Claims for defects that cannot be identified with a thorough check upon receipt of the goods (hidden defects) must be notified, under penalty of forfeiture, to Arcansas Profili s.r.l by registered letter with return receipt within seven days from the discovery of the defect and no later than 12 months from delivery.

Any complaints will not entitle the purchaser to suspend or delay payments due to Arcansas Profili s.r.l.

Warranty and defects:

Arcansas Profili s.r.l undertakes to replace products that present defects, lack of quality or lack of conformity attributable to it, which occurred within twelve months of delivery of the products, provided they have been promptly presented in the manner previously reported. Arcansas Profili s.r.l does not guarantee the compliance of the products with particular specifications or technical characteristics or their suitability for particular uses, except to the extent that these characteristics have been expressly agreed in the contract.

In the event of apparent and/or hidden defects recognised by Arcansas Profili s.r.l, the purchaser is only entitled to the replacement of the product, which will be accepted as a return only in original, intact, and complete packaging.

No product may be replaced without prior written authorisation from Arcansas Profili s.r.l.

This warranty replaces the warranties and responsibilities provided for by law and excludes any other liability of Arcansas Profili s.r.l originating from the products sold, except in cases of willful misconduct and gross negligence.

Retention of title:

The products remain the property of Arcansas Profili s.r.l until their full payment by the purchaser.

Failure to pay, even partial, entitles Arcansas Profili s.r.l to recover the delivered goods, even if they are on deposit with third parties.

Industrial and intellectual property:

Distinctive signs, photographs of Arcansas Profili s.r.l products and/or production and business technologies must not be used or disclosed without the prior written permission of Arcansas Profili s.r.l.

Privacy:

The personal and tax data acquired directly and/or through third parties from Arcansas Profili s.r.l (Località Cerbara, 61030 Terre Roveresche PU), the data controller, are used for contractual and legal requirements, as well as to allow effective management of business relationships.

Such data may be communicated in Italy and/or abroad to the network of Arcansas Profili s.r.l agents, factoring companies, credit institutions, debt collection companies, credit insurance companies, business information companies, professionals and consultants, transporters.

Jurisdiction:

For any disputes arising from the business conditions and/or from the orders connected to it, the Pesaro court will have exclusive jurisdiction.

CONDITIONS COMMERCIALES**Commandes, paiements et délais de livraison :**

1. Sauf indication contraire, toutes les quantités en commande sont arrondies à la quantité par convention de cette liste de prix, sinon une majoration du prix de liste de 10 % sera appliquée.

L'augmentation sera de 20 % si les quantités requises sont inférieures à 10 pièces. (Exemple d'arrondi : de 11 à 14 arrondis à 10, de 15 à 19 arrondis à 20)

2. Paiements : première livraison, contre remboursement.

3. Les livraisons d'un montant inférieur à 100,00 € net de remises ne seront pas traitées.

4. Toutes les commandes reçues avant 11h00 seront traitées dans les 24 heures.

5. Pour les livraisons sur rendez-vous, vérifiez auprès du bureau de commande de faisabilité et en supplément.

6. Pour les frais de port, consultez le bureau commercial de référence.

Frais divers :

1. Frais de ports offerts pour les montants de facture supérieurs à 250,00 €.

2. Pour les montants de facture inférieurs à 250,00 €, 15,00 € de frais administratifs seront facturés.

Risques liés au transport : les marchandises circulent aux risques et périls de l'acheteur, même si les frais de port sont offerts.

CONDITIONS GÉNÉRALES**Dessins et documents descriptifs :**

Toutes les photographies, dessins et données techniques des produits du catalogue sont à titre informatif et illustratif, donc non contraignants.

Modifications :

Arcansas Profili s.r.l se réserve le droit d'apporter des modifications à ses propres produits, emballages et toute autre chose sans préavis.

Réclamations :

Les réclamations pour vices ou défauts apparents (par exemple, manque ou dommage) doivent être présentées au transporteur directement à la réception de la marchandise et également dans les meilleurs délais à Arcansas Profili s.r.l, au moyen d'une réserve écrite sur le bon de livraison précisant le type d'anomalie, sous peine de déchéance de tout droit de garantie et de réparation.

Les réclamations pour vices ou défauts qui ne peuvent être identifiés avec un contrôle diligent à la réception de la marchandise (vices ou défauts cachés) doivent être notifiées, sous peine de déchéance, à Arcansas Profili s.r.l par lettre recommandée avec accusé de réception dans les sept jours à compter de la découverte du vice ou du défaut, cependant, au plus tard 12 mois après la livraison.

Toute réclamation ne donnera pas le droit à l'acheteur de suspendre ou de retarder les paiements dus à Arcansas Profili s.r.l.

Garantie et défauts :

Arcansas Profili s.r.l s'engage à remplacer les produits présentant des dommages, des défauts de qualité ou des défauts de conformité qui lui sont imputables, survenus dans les douze mois suivant la livraison des produits, à condition qu'ils aient été présentés dans les meilleurs délais de la manière précédemment signalée.

Arcansas Profili s.r.l ne garantit pas la conformité des produits à des spécifications ou caractéristiques techniques particulières ou leur adéquation à des usages et/ou usages particuliers, sauf dans la mesure où ces caractéristiques ont été expressément convenues dans le contrat.

Si des défauts apparents et/ou cachés sont décelés par Arcansas Profili s.r.l, l'acheteur n'a droit qu'au remplacement du produit, qui ne sera accepté en retour que dans son emballage d'origine, intact et complet.

Aucun produit ne peut être remplacé sans l'autorisation écrite préalable d'Arcansas Profili s.r.l.

Cette garantie remplace les garanties et responsabilités prévues par la loi et exclut toute autre responsabilité d'Arcansas Profili s.r.l provenant des produits vendus, sauf en cas de faute intentionnelle et de négligence grave.

Réserve de propriété :

Les produits restent la propriété d'Arcansas Profili s.r.l jusqu'à leur paiement intégral par l'acheteur.

Le défaut de paiement, même partiel, autorise Arcansas Profili s.r.l à récupérer les marchandises livrées, même si elles sont en dépôt auprès de tiers.

Propriété industrielle et intellectuelle :

Les signes distinctifs, photographies des produits Arcansas Profili s.r.l et/ou technologies de production et commerciales ne doivent pas être utilisés ou divulgués sans l'autorisation écrite préalable d'Arcansas Profili s.r.l.

Confidentialité :

Les données personnelles et fiscales personnelles acquises directement et/ou par l'intermédiaire de tiers auprès d'Arcansas Profili s.r.l (Località Cerbara, 61030 Terre Roveresche PU), responsable du traitement, sont utilisées pour les exigences contractuelles et légales, ainsi que pour permettre une gestion efficace des relations commerciales.

Ces données peuvent être communiquées en Italie et/ou à l'étranger au réseau d'agents Arcansas Profili s.r.l, aux sociétés d'affacturage, aux établissements de crédit, aux sociétés de recouvrement de créances, aux sociétés d'assurance-crédit, aux sociétés d'informations commerciales, aux professionnels et consultants, ainsi qu'aux transporteurs

Tribunal compétent :

Pour tout litige découlant des conditions commerciales et/ou des commandes qui y sont liées, le tribunal de Pesaro sera seul compétent.

CONDICIONES COMERCIALES**Pedidos, pagos y entregas:**

1. A menos que se indique lo contrario, todas las cantidades de los pedidos se redondean a la cantidad por convención en esta lista de precios. De lo contrario se aplicará un aumento del 10 % sobre el precio de lista. El aumento será del 20 % si las cantidades requeridas son inferiores a 10 piezas. (Ejemplo de redondeo: de 11 a 14 redondeo a 10, de 15 a 19 redondeo a 20)

2. Pagos: primera entrega, contrarrembolso.

3. No se procesarán los suministros con cantidades inferiores a 100 € netos de descuentos.

4. Todos los pedidos recibidos antes de las 11:00 se procesarán en un plazo de 24 horas.

5. Para entregas con cita previa, consulte con la oficina de pedidos la viabilidad y los recargos.

6. Para los costes de transporte, consulte la oficina comercial de referencia.

Gastos varios:

1. Puerto franco para facturas superiores a 250 €.

2. Por los importes de las facturas inferiores a 250 euros se cobrarán 15 euros en concepto de gastos administrativos.

Riesgos de transporte: la mercancía viaja por cuenta y riesgo del comprador, incluso en el caso de puerto franco.

CONDICIONES GENERALES**Diseños y documentos descriptivos:**

Todas las fotografías, diseños y datos técnicos de los productos del catálogo son informativos e ilustrativos, por lo que no son vinculantes.

Modificaciones:

Arcansas Profili s.r.l se reserva el derecho de hacer cambios a sus propios productos, embalajes y cualquier otro elemento sin previo aviso.

Reclamaciones:

Las reclamaciones por defectos o vicios aparentes (por ejemplo, falta o daños) deben presentarse al mensajero directamente al recibir la mercancía y sin demora a Arcansas Profili s.r.l mediante notificación escrita en el albarán de entrega especificando el tipo de anomalía, a cambio de la pérdida de todo derecho de garantía y de compensación.

Las quejas por defectos o vicios no detectables con un control diligente al recibir la mercancía (defectos o vicios ocultos), deben notificarse, so pena de caducidad, a Arcansas Profili s.r.l por carta certificada con acuse de recibo en un plazo de siete días a partir del descubrimiento del defecto o vicio y, en cualquier caso, en un plazo máximo de 12 meses a partir de la entrega.

Cualquier queja no dará derecho al comprador a suspender o retrasar los pagos debidos a Arcansas Profili s.r.l.

Garantía y defectos:

Arcansas Profili s.r.l se compromete a sustituir los productos que presenten defectos, falta de calidad o falta de conformidad que le sean imputables, que se hayan producido dentro de los doce meses siguientes a la entrega de los productos, siempre y cuando se hayan presentado sin demora en la forma anteriormente comunicada.

Arcansas Profili s.r.l no garantiza la conformidad de los productos con especificaciones o características técnicas particulares o su idoneidad para usos y/o usos particulares, salvo en la medida en que dichas características hayan sido expresamente acordadas en el contrato. En caso de defectos aparentes y/u ocultos reconocidos por Arcansas Profili s.r.l, el comprador tiene el derecho exclusivo a la sustitución del producto, que se aceptará a cambio únicamente en el embalaje original, intacto y completo.

Ningún producto se podrá reemplazar sin una autorización previa por escrito de Arcansas Profili s.r.l.

Esta garantía sustituye a las garantías y responsabilidades previstas por la ley y excluye cualquier otra responsabilidad de Arcansas Profili s.r.l en cualquier caso que se derive de los productos vendidos, excepto en caso de intención y negligencia grave.

Reserva de propiedad:

Los productos son propiedad de Arcansas Profili s.r.l hasta que el comprador los pague en su totalidad.

El impago, aunque sea parcial, da a Arcansas Profili s.r.l el derecho de recuperar los bienes suministrados, aunque estén almacenados con terceros.

Propiedad industrial e intelectual:

Los signos distintivos, las fotografías de los productos de Arcansas Profili s.r.l y/o las tecnologías de producción y comerciales no se utilizarán o revelarán sin el permiso previo por escrito de Arcansas Profili s.r.l.

Privacidad:

Los datos personales y fiscales adquiridos directamente y/o a través de terceros por Arcansas Profili s.r.l (Località Cerbara, 61030 Terre Roveresche PU), el controlador de datos, se utilizan para los requisitos contractuales y legales, así como para permitir una gestión eficaz de las relaciones comerciales.

Dichos datos se podrán comunicar en Italia y/o en el extranjero a la red de agentes de Arcansas Profili s.r.l, empresas de factoring, instituciones de crédito, empresas de cobro de deudas, compañías de seguros de crédito, empresas de información comercial, profesionales y consultores, transportistas.

Jurisdicción competente:

Para cualquier controversia que surja en relación con las condiciones comerciales y/o las órdenes conexas, el tribunal de Pesaro tendrá jurisdicción exclusiva.
